**FOR IMMEDIATE RELEASE**  
**Averhealth and Labb Announce Strategic Partnership**

**RICHMOND, Va. – March 4, 2025** – Averhealth, a leader in criminal-justice drug testing logistics, and Labb, the software developer behind the cutting-edge *Labb Station System*, have announced a strategic laboratory partnership to improve the instant cup drug testing process for programs across the country. Averhealth, known for its industry-leading turnaround times, will provide laboratory confirmation results to current and future Labb customers.

Averhealth’s accredited laboratory in St. Louis, MO, provides rapid, accurate drug testing for over 1,500 substances across various specimen types. Certified by CAP-FDT and the U.S. Department of Health and Human Services, the lab uses advanced methods such as LC-MS/MS to deliver timely results for effective substance use monitoring and recovery support.

“Labb is excited to announce a new partnership with Averhealth, our preferred provider for eTox urine and oral fluid testing products,” said James Ramsey, CEO of Labb. “Together, we have developed the most flexible testing technology available for the workplace. This collaboration will empower our customers with enhanced flexibility, quicker turnaround times, and an expanded array of panel options.”

"Averhealth is proud to support Labb’s innovative platform with our accredited laboratory services, delivering rapid and accurate confirmation results," Dominique Delagnes, Averhealth’s CEO, said. “Through this partnership, our state-of-the-art lab capabilities will enable Labb’s customers to achieve faster, more reliable results, ensuring they have timely, dependable data to make informed decisions for their customers."

This partnership between Averhealth and Labb marks a significant step forward in enhancing the efficiency and accuracy of drug testing. By combining Averhealth’s state-of-the-art laboratory capabilities with Labb’s innovative app-based platform, the two companies are poised to provide more reliable and timely results, ensuring better outcomes for communities nationwide.

## **About Averhealth**

*Since its founding in 1995, Averhealth has created a unique, comprehensive approach to drug testing that remains unparalleled in the industry. With expertise and a singular-focus on criminal-justice based drug testing, Averhealth works alongside programs nationwide as a knowledgeable industry partner and total test logistics vendor.
